

RUACH ELOHIM MINISTRIES INTERNATIONAL (REMI)

Founded by Dr. Ismaila Hans Awudu

Website Development — Reference & Architecture Study

Prepared by XCreativs Technologies Ltd | August 2026

Purpose of This Document

This document serves as the foundational reference brief for the design and development of the official website for **Ruach Elohim Ministries International (REMI)**, founded by **Dr. Ismaila Hans Awudu**. As full brand and content details from the ministry's leadership are still being gathered, this first working version will be built using intelligent content generation and online research.

***Note to the AI Build Agent:** Since detailed church-specific content (history, statement of faith, leadership bios, programmes, media assets) has not yet been provided by Dr. Awudu, the build agent is authorised to **research REMI online** and **generate contextually appropriate placeholder content** aligned with a Spirit-filled, apostolic/prophetic ministry identity. All AI-generated content must be clearly flagged for review and approval by the founding pastor before the site goes live. The reference websites listed in this document serve as the structural and design benchmark for REMI's site.*

Reference Church Websites — World's Best

The following church websites were selected as global benchmarks for content depth, design quality, user experience, sermon/media libraries, online community features, and digital ministry infrastructure. Each site has been studied to inform the architecture of REMI's website.

Global Megachurches & High-Content Platforms

1.	Life.Church (Craig Groeschel)	https://www.life.church
2.	Elevation Church	https://elevationchurch.org
3.	Hillsong Church	https://hillsong.com
4.	Saddleback Church	https://www.saddleback.com
5.	Lakewood Church (Joel Osteen)	https://www.lakewood.cc
6.	North Point Ministries (Andy Stanley)	https://northpoint.org
7.	Church of the Highlands (Chris Hodges)	https://www.churchofthehighlands.com
8.	Gateway Church	https://gatewaypeople.com
9.	Willow Creek Community Church	https://www.willowcreek.com
10.	The Potter's House (T.D. Jakes)	https://www.thepottershouse.org

Theologically Rich / Teaching-Heavy Sites

11 .	Desiring God (John Piper)	https://www.desiringgod.org
12 .	Grace to You (John MacArthur)	https://www.gty.org
13 .	The Gospel Coalition	https://www.thegospelcoalition.org
14 .	Redeemer City to City (Tim Keller)	https://www.redeemercitytocity.com
15 .	First Baptist Dallas	https://www.firstdallas.org

African & Global South Notable Sites

16 .	RCCG — Redeemed Christian Church of God	https://rccg.org
17 .	Winners' Chapel International	https://www.daveministries.org
18 .	Christ Embassy (Believer's LoveWorld)	https://www.christembassy.org
19 .	House on the Rock	https://www.houseontherock.org.ng
20 .	Living Faith Church Worldwide (Faith Tabernacle)	https://www.faithtabernacle.org.ng

What to Study from Each Reference Site

The AI build agent and the development team should study each reference site across the following dimensions when designing REMI's website architecture:

Homepage Hero Section	How the church presents its primary identity statement, service times, and call-to-action above the fold.
Navigation Architecture	Menu structure, mega-menus, location selectors, and how they organise content for first-time visitors vs. members.
Sermon / Media Library	How sermons, series, podcasts, and live streams are organised, tagged, and delivered.
About & Leadership Pages	How the founding pastor's story, vision, values, and leadership team are presented.
Events & Calendar	How upcoming services, programmes, and special events are showcased and promoted.

Online Giving	Giving page design, currency options, recurring giving prompts, and transparency messaging.
Community / Connect Pages	How the church invites people into small groups, ministries, and membership pathways.
Mobile Responsiveness	How each site adapts to mobile — critical for an African audience primarily on smartphones.
Brand Consistency	Use of colour, typography, imagery tone, and logo placement across all pages.
Footer Structure	What information is surfaced in the footer — contact, social links, legal, quick links.

Immediate Next Steps

1. AI agent researches REMI online and drafts church history, mission, vision, and values copy.
2. Generate placeholder content for: About, Leadership, Sermons, Events, Give, Connect, Contact pages.
3. Select design direction based on reference site audit (colour, typography, layout style).
4. Build first working version (V1) of the REMI website using DesignForge Website OS or agreed stack.
5. Share V1 with Dr. Ismaila Hans Awudu for review, content corrections, and brand sign-off.
6. Iterate to V2 incorporating official assets (logo, photos, videos, statements of faith).
